Lab:
Session:

Date &
Session Period:

You may print as many additional blank pages as necessary for each section. You may use the back side of each sheet. Be sure to number the pages and place them in the correct ordering.

1 Pre-lab Activity

Answer your pre-lab questions here.

2 Introduction

Clearly state your goals and hypotheses.

3 General Notes

This section may be less organized. We expect to find: a rough protocol, rough calculations and thoughts about your intermediate results. This section is expected to be “messy”.

4 Results

Formally present your results. See the **Data Presentation** section of your lab manual.

5 Conclusion

Summarize your findings, and offer an improvement to this lab. Explain how this would concretely improve the lab by conjecturing possible outcomes.
